Safe Harbor Disclosure

Statements in this presentation that are not historical facts, including statements regarding our estimates, beliefs, expectations, intentions, strategies or projections, may be “forward-looking statements” within the meaning of the U.S. federal securities laws, including the Private Securities Litigation Reform Act of 1995. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the United States securities laws. In some cases, these statements can be identified by the use of forward-looking words such as “may,” “should,” “could,” “anticipate,” “estimate,” “expect,” “plan,” “believe,” “predict,” “potential,” “intend” or similar expressions. Our expectations are not guarantees and are based on currently available competitive, financial and economic data along with our operating plans. Forward-looking statements contained in this presentation may include, but are not limited to, information regarding our estimates of losses related to catastrophes and other large losses, measurements of potential losses in the fair value of our investment portfolio, our expectations regarding pricing and other market conditions and valuations of the potential impact of movements in interest rates, equity prices, credit spreads and foreign currency rates.

Forward-looking statements only reflect our expectations and are not guarantees of performance. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements. We believe that these factors include, but are not limited to, the following:

- The occurrence and magnitude of natural and man-made disasters,
- Actual claims exceeding our loss reserves,
- General economic, capital and credit market conditions,
- The failure of any of the loss limitation methods we employ,
- The effects of emerging claims, coverage and regulatory issues,
- The failure of our cedants to adequately evaluate risks,
- Inability to obtain additional capital on favorable terms, or at all,
- The loss of one or more key executives,
- A decline in our ratings with rating agencies,
- Loss of business provided to us by our major brokers,
- Changes in accounting policies or practices,
- The use of industry catastrophe models and changes to these models,
- Changes in governmental regulations,
- Increased competition,
- Changes in the political environment of certain countries in which we operate or underwrite business, and
- Fluctuations in interest rates, credit spreads, equity prices and/or currency values.

This report is for informational purposes only. It should be read in conjunction with the documents that we file with the Securities and Exchange Commission pursuant to the Securities Act of 1933 and the Securities Exchange Act of 1934.

Efficient Capital Management

Beginning of Year 2012 Market Environment

- ④ Mixed, gradually improving pricing environment with a positive bias in a number of lines, particularly in the U.S.
 - Rate increases significant for U.S. cat exposure and loss-affected accounts globally, but more rate is required
 - Generally, competitive reinsurance environment in Europe
 - Wholesale specialty lines trending upward
 - Professional lines competition finally moderating
 - Pricing changes not yet outpacing loss trend in casualty
- ④ Uncertain global economic environment
 - Suppressed economic growth
 - Low interest rate environment
 - Eurozone crisis

AXIS Strategy In Current Market Environment

Focused on a strong foundation for underwriting execution and a strong, stable and competitive capital base with financial flexibility appropriate for this phase of the P&C cycle

Underwriting

- 🌐 **Manage risk appetite**
- 🌐 **Incorporate lessons from recent experience**
- 🌐 **Prepare to accelerate underwriting**
- 🌐 **Continue to cultivate distribution footprint and new initiatives (e.g. A&H)**

Investments

- 🌐 **Maintain exposure to investment-grade spread assets**
- 🌐 **Maintain liquidity and shorter duration**
- 🌐 **Optimize total return through continued diversification away from interest rate sensitive assets**

Capital

- 🌐 **Maintain financial flexibility**
- 🌐 **Maintain financial strength but “right size” to opportunity**
- 🌐 **Dividend policy characterized by consistent increase and attractive yield**

AXIS Strategy

- 🌐 Diversified range of specialty products across market segments and geographies
- 🌐 Best-in-class service and effective risk management solutions for our clients and our partners in distribution
- 🌐 Underwriting of complex and volatile risks with moderation of volatility through risk limits, diversification and risk management
- 🌐 Modulation of risk appetite and capital across the insurance cycle, commensurate with available market returns
- 🌐 Industry leading financial strength, characterized by financial conservatism and transparency
- 🌐 Cultivation of an ethical, risk-aware, achievement-oriented culture that promotes discipline, entrepreneurialism and professionalism

Positioned for Industry-Leading Results

- ① Capacity for greater-than-industry growth in favorable markets and less-than-industry revenue reduction in difficult markets
 - Sufficient scale to provide larger capacity – competitive advantage
 - Not so large as to lose agility
 - Sufficient diversity to manage cycle and volatility successfully
 - Continued investment in franchise
- ① Focused on delivering long-term value for our shareholders
 - Industry-leading underwriting results
 - Industry-leading ROACEs with industry-average volatility
 - Industry-leading book value growth with industry-average volatility

Conclusion

- 🌐 Global insurance and reinsurance platform
- 🌐 Diversified book of business by product and geography
- 🌐 Excellent market reputation
- 🌐 Deep relationships
- 🌐 Ability to access and underwrite complex risks
- 🌐 Strong entrepreneurial and underwriting culture
- 🌐 Strong capital and ratings and conservative balance sheet
- 🌐 Successful track record
